THE STORY

If one thing could be said for certain about the trio Bird Gets The Smile it is that they refuse to surrender or yield to any one particular style or trend. It is impossible to pin them down to anything definitive, to bottle them up or package them nice and neat under any one rock genre. Simply put, Bird Gets The Smile defy all labels and definitions. Alternative? More than most. Indie rock? Sure. Punk rock? If you want. Emo? Sometimes. Math rock? Don't forget your calculator.

Whatever you may want to call it, Bird Gets The Smile plays brash, intelligent, and emotive music, combining intricately interwoven melodies, steady grooves, and spiraling, pounding rhythms that drag your brain to that warm and fuzzy place where all we love to be. Smart, aggressive and poetic, it's only a matter of time before the world catches up with them.

THE FACTS

Formed in summer of 1998, Boston.

Released a self-recorded demo in early 1999. The band plays consistently in and around Boston garnering a reputation as an explosive live act.

You Never Knew Whitey Glew?, their first full-length, is released in early 2000. Recorded by guitarist/vocalist Mario Quintero in the basement of their Allston, MA home, the record quickly sells out of its first pressing. The band completes a tour of the Eastern Seaboard.

In September of 2000, Bird Gets The Smile becomes the first band to officially join the Reason Y roster.

In October 2002 the trio release their third recording, a self-titled four song EP on Reason Y Records. This time Jason Finkle (The Faithfull) is at the controls assisted by Mario. A tour of the Eastern Seaboard soon follows.

Bird Gets The Smile strike their final chord in September of 2003.
